

Recreational Soccer Training Program

Metropolitan Soccer Academy would like to introduce its Recreational Soccer Training Program. This program includes professional training for the players of your recreational soccer program. Too often these players are overlooked for quality training. Now, MSA will provide those players the opportunity to receive proper training.

There are 2 options that we can provide your program:

1. **Team Training:** MSA trainers will provide each rec program team with a minimum of 2 training sessions per season. Along with the players receiving proper instruction, coaches will be able to learn as well. We want to educate the coaches in order to continue training throughout the season.
2. **1 Day Clinic:** MSA will conduct a 1 day clinic for all groups in your program. The clinic will be broken down by age group and provide the kids with quality technical training.

To receive more information, please call today.

ABOUT METROPOLITAN SOCCER ACADEMY

Metropolitan Soccer Academy is a full service soccer training company.
